

## **CARROLL TREASURE**

5645 N. University Drive, Coral Springs, FL 33067 • (954) 218-3524  
Gcatreas@yahoo.com

Proficient in program management, operations management, needs assessment, strategic planning, change management and creating synergy across all aspects of a business

### **SUMMARY OF SKILL SETS**

Transferable skill sets; New business launch; Product Life Cycle management; Operations management; Resource Allocation; Project management; Strategic Planning; Cross functional team management; Process Reengineering; Design of electronic circuits; Planning, design, testing of products; Test fixture design; Develop product prototypes; Hardware/software integration; Field and in-house support with product design, repair, troubleshooting; Validation and verification of products; Experience with battery monitoring equipment and communication systems; Experience with LAN, WLAN and network communications equipment; New Product Introduction and transfer to manufacturing; Cable design; Electronic circuit troubleshooting and evaluation to component level; Manage products from concept stage to release and shipment; Develop Training, Standard Operating Procedure, Design, Disaster Recovery Plan, Troubleshooting documentation; Schematic capture and printed circuit board layout; Altium, Protel, Mentor Graphics software; Integration of hardware, firmware, mechanical aspects of products; Jira; PowerPoint, Excel, MS Word, MS Project; Develop and issue Engineering Change Notifications and Quality Improvement documents; Process management to increase system efficiency; Presentation skills; Client and vendor relationship management; Working knowledge of computer-based systems; Work experience in Engineering, IT and Risk Management; Ability to learn new concepts and develop new skills; Ability to define problems and contribute corrective action in a timely manner; Interface with Management, Engineering, Manufacturing, Field Service, Purchasing, Support personnel

### **EXPERIENCE**

SENIOR INDUSTRY CONSULTANT, Florida  
Current

Manage projects in industry on a case by case basis

STAPLES BUSINESS ADVANTAGE (STAPLES TECHNOLOGY SOLUTIONS), Deerfield Beach, FL  
Project Manager  
2018-2019

Manage the planning and implementation of hardware and software relating to printing technology solutions; Cross functional team management

HOTWIRE COMMUNICATIONS, Fort Lauderdale, FL  
Project Manager  
2016-2018

Manage the planning and implementation of wireless network infrastructure; Cross functional team management

STRATSONANT TECHNOLOGIES CORPORATION, Pembroke Pines, FL  
President  
2014-2016

Launch research and documentation business; Operations management; Relationship management; Project management

QUEST CONTROLS, INC., Palmetto, FL  
Project Manager  
2013

Managed projects relating to deployment, installation, testing and commissioning of equipment for energy management control systems, power, telecom, battery monitoring

ALBER CORPORATION (division of EMERSON NETWORK POWER), Pompano Beach, FL  
Engineer

2007-2013

Sustained and troubleshoot battery monitoring equipment; Designed and upgraded test fixtures; Managed projects relating to engineering and manufacturing; Improved existing methods and practices; Wrote test fixture manuals; Created schematics and other engineering documents; Identified and resolved design and manufacturing issues

UNIVERSITY OF MIAMI, Coral Gables, FL  
Information Technology/Telecommunications Staff

2004-2007

Sustained, implemented and troubleshoot Wireless Local Area Network; Supported, configured, installed and maintained network communications equipment; Supported and advised end users on technical issues; Performed research and worked on projects in engineering and business; Troubleshoot computers for hardware and software issues

INDUSTRY CONSULTANT, Florida

2002- 2004

Worked on several projects in industry; Performed research in engineering and business; Troubleshoot computers for hardware and software issues

MOTOROLA, INC., Fort Lauderdale, FL  
Electrical Engineer

1999-2002

Designed, tested and evaluated digital and RF circuits for electronic devices; Worked on projects from concept of electronic device stage to ship date; Performed technical analysis, troubleshooting and documentation; Worked with cross-functional teams (including SW engineers, mechanical engineers, PCB designers); Maintained business relationships with vendor representatives

XEROX CORPORATION, Rochester, NY  
Electrical Engineer

1999

Developed design processes to meet specifications and quality standards related to equipment; Performed Technical Analysis, Quality Control, Failure Modes and Effects Analysis, Root Cause Analysis; Provided training for the implementation of design processes; Maintained business relationships with cross-functional teams

ALDEN RISK MANAGEMENT SERVICES, Miami, FL  
Claims Specialist

1993-1998

Evaluated reinsurance claims to determine any reimbursements; Worked with Third Party Administrators (TPA) and self-funded groups; Performed Due Diligence and Aggregate Audits; Contributed significantly to the development of the Preferred TPA Project; Assisted marketers with quotes for new groups or renewals; Developed and maintained business relationships with client base

## **EDUCATION**

UNIVERSITY OF MIAMI, Coral Gables, FL  
BS, Electrical Engineering

Epsilon Kappa Chapter of Eta Kappa Nu (Honors Society); Golden Key Honors Society; Institute of Electrical and Electronic Engineers; Recipient, Henry Stanford Scholarship; John F. Kennedy- Martin L. King Scholarship.
