

MACKENZIE BAKSH

- FULL-STACK DEVELOPER -

"Mackenzie is a fierce achiever with unwavering ambition."
23,912 LINES OF CODE WRITTEN, +232 ENDORSEMENTS,
7 RECOMMENDATIONS

THE LOW MAINTENANCE TEAM PLAYER YOU'VE DREAMED OF...

"Mackenzie has a knack for technology and never hesitates when presented with a problem."

"If you ever get the chance to work with this guy, you won't be disappointed."

"[A] talented developer who refuses to cut corners."

Basically, if you give me a project, I'll get it done ahead of schedule, ahead of expectations, without needing my hand held. Pro at UI/UX, Web Development, and Getting things done.

What do I bring to the table?

5+ years of diverse leadership and management experience. My background in the visual arts allows me to fuse both the art and technology world together in perfect harmony.

I don't want...

...Just another job. I want to solve problems and make people's lives easier.

"The average cost of a bad hire is about 6 to 15 times the person's annual salary." – Darren Hardy, The Entrepreneur Roller Coaster

I realize this. And I don't want you to make that mistake. Bring me on and I'll actually live up to the expectations in this resume.

The tech: Front-end Dev (Javascript, HTML, CSS), ReactJS, Firebase, Python, SQL, & the Adobe Suite. The truth is I can learn anything needed with ease.

HAVE I ACTUALLY DONE ANYTHING?...

Storage Engineer | Intercontinental Exchange – Atlanta, GA | 2017 - Present

Automating tasks through bash scripts while supporting server uptime in a fast paced financial infrastructure. Reduce employee workload by 67.5%. Work remotely once a week.

IT Analyst | Intercontinental Exchange – Atlanta, GA | 2015 – 2017

Provided customer support to over 700+ employees. Skills required consisted of attention to detail, clear communication, & the ability to troubleshoot & research. Presented leadership skills by onboarding new IT Analyst and guiding them through standard procedures. Worked onsite.

Other notable items:

- Built Interactive Property Search website using ReactJS
<https://propertysearch.ga> (User Authentication, Fetch Data from API, Google Maps Integration, Infinite Scrolling, & Various other features)
Login Credentials, email: admin@admin.com Password: password
- Built a form automation tool using Google's Puppeteer which is a Javascript Framework. It ran in a headless mode with an interactive prompt that includes user input options. It also included a captcha solver.
- Co-Founder - CTO & Web Developer | InvestoSports, LLC
- Udacity - Online Course | Completed Front-end Nanodegree

THE BEST KIND OF EDUCATION

A little formal education + self-education + real life trial and error
